**NEW! THE COMPLETE DINING SOLUTION
FROM NEVILLE JOHNSON**

Neville Johnson, pioneers of stylish, bespoke fitted furniture, have introduced their first range of standalone dining tables and chairs to complement their already extensive portfolio. All have been exclusively created for Neville Johnson and include unique designs that cater for all tastes and styles.

The four new dining table designs - *Kite*, *Refectory*, *Grid* and *Ciclo* – are all available in a variety of sizes, colours and materials. They have been designed to provide the finishing elements to a Neville Johnson dining space, within either a dedicated dining room set-up or a more relaxed, open plan environment.

The sheer variety of furniture and storage options means there really is no need for compromise. Every detail is considered from integrated fridges and wine racks built under the stairs, to stylish display cabinets with sliding glass panels and built-in window seats, to incorporated cutlery drawers and plate storage, through to dining tables and chairs to match. Neville Johnson is in a unique position to provide bespoke design, based purely on the customer's individual, and very specific, requirements.

The Kite dining table and chair, featured here in Dijon walnut veneer, is designed by Chris Eckersly as part of the Eureka initiative

The '**Kite**' dining table has been designed exclusively for Neville Johnson and the Eureka project, an initiative which aims to raise the profile of young new talent by encouraging British retailers and manufacturers to commission British designers. The table and chairs are contemporary with a subtle retro twist shown in the sleek 'kite'-shaped design of the table and chair legs. The dining table comes as a 4/6 seater (2100cm wide x 950cm deep).

Chris Eckersley, designer of the Kite dining table and chairs, comments on his collaboration with Neville Johnson: *'My vision for the dining table and chairs for Neville Johnson was to reflect and enhance the ethos of the company. In this way, I have tried to make the pieces contemporary, distinctive, and designed in such a way that the fine craftsmanship is clearly evident.'*

The '**Refectory**' table is a more classic alternative and is handcrafted from the highest quality materials. The hand selected veneer top and solid carriage makes the table a timeless piece and the chairs are designed with moulded seats for the utmost comfort. Available as a 6/8, 8/10 or 10/12 seater table – it is perfect for large families or for entertaining.

The fully extendable '**Grid**' table is another example of classic design combined with a modern twist. The exquisite handcrafted 'grid' detail at the ends of the table matches the design in the back of the corresponding dining chairs.

Finally '**Ciclo**', featured as part of the Living Spaces concept, is available in a 4, 6, or 8 seater and creates the focal point of any dining room. The stunning solid oak table is finished with a contemporary glass top, which is available in a variety of colours including black, white, red, green, frosted, smoked and clear.

Increasingly we try to fit so much activity into one room and the dining room is no different – as a place to eat, relax and spend time with friends. But now, instead of compromising with furniture which tries to cover the needs of the masses, Neville Johnson can design pieces to your individual requirements, tastes, budget and even architectural features in the home. Every detail is attended to, from the shape, size and material of the dining table and chairs, through to the surrounding furniture – so you can sit back and enjoy a dining space custom built especially for you.

The dining room concept starts from £4000 + VAT, with dining tables starting from £1850 plus VAT. To arrange a no obligation consultation with a Neville Johnson designer or to receive a free brochure, call 0161 873 8333. The dining table and chairs alongside a wide selection of bespoke fitted furniture concepts can also be viewed at www.nevillejohnson.co.uk/pr, including options for studies, bedrooms, dressing rooms, cinema rooms, lounges, libraries, and living rooms.
